

psplash - Bug #267

Remove use of rcstatus from psplash.f

15 Jan 2014 10:32 - Hammel

Status:	Closed	Start date:	15 Jan 2014
Priority:	Normal	Due date:	
Assignee:	Hammel	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	0.8.0		
Severity:	03 - Medium		
Description			
<p>The bumpSplash() function writes to /etc/init.d/rcsplash as debugging. I don't think this is really necessary anymore. It should be removed.</p> <p>If it is necessary then S89stopsplash should remove it.</p>
