

PiBox - Bug #296

Change firstboot to include one-time events

14 Mar 2014 14:52 - Hammel

Status:	Closed	Start date:	14 Mar 2014
Priority:	Immediate	Due date:	
Assignee:	Hammel	% Done:	100%
Category:	04 - Root File System	Estimated time:	0.00 hour
Target version:	0.9.0		
Severity:	03 - Medium		
Description			
For example, generating the ssh-keys should occur on first boot, but never after. Device creation in S00dev needs only happen on firstboot. There may be others.			

Associated revisions

Revision ca4e57e7 - 30 Mar 2014 20:51 - Hammel

RM #296: Added fbftf_tools to kernel build.

Revision cd614547 - 27 Apr 2014 16:28 - Hammel

RM #296: Removed commented out call to rc.modules in S00dev. Added calls to init scripts that do initialization in firstboot. Makes for a clean 2nd boot.

History

#1 - 17 Mar 2014 19:05 - Hammel

- Priority changed from Normal to Immediate

#2 - 13 Apr 2014 13:16 - Hammel

Need to run mkfontdir in the following directories:

1. /opt/vc/src/hello_pi/hello_font
2. /usr/local/share/feh/fonts
3. /usr/share/imlib2/data/fonts
4. /usr/share/fonts/liberation

#3 - 27 Apr 2014 15:14 - Hammel

- Status changed from New to In Progress

- % Done changed from 0 to 50

firstboot is updated to support the new font dirs and now calls a number of init scripts (if they exist) that perform initialization.

Once verified on a fresh install to SD and then pushed upstream, this issue can be closed.

#4 - 27 Apr 2014 16:29 - Hammel

- *Status changed from In Progress to Closed*
- *% Done changed from 50 to 100*

Verified on target with fresh install. Changes pushed upstream.

Closing issue.
