

VideoLib - Feature #344

Poster settings need to be saved to config

08 Jun 2014 21:56 - Hammel

Status:	Closed	Start date:	08 Jun 2014
Priority:	Low	Due date:	
Assignee:	Hammel	% Done:	100%
Category:	UI	Estimated time:	0.00 hour
Target version:	2.0 - Harkonnen		
Severity:	04 - Low		
Description			
The set of poster sizes configured for download needs to be saved as a configuration item and used to set the UI on restart.			
Same will be true for saving and reusing the the default size.			

Associated revisions

Revision 63e9da3d - 14 Aug 2016 21:40 - Hammel

RM #524, RM #486, RM #468, RM #344, RM #343: Refactored code to be much simpler, putting more of the load in MovieDB from UI. Also allows saving and better use of JSON data from upstream db. Changed from flat file db to saving all JSON data for all movies. Added VideoLib specific fields to json to make it easier to edit which alternative to use. Fixed scanning to only scan new videos unless specifically requested to rebuild database. Dropped multiple poster sizes to simplify code.

History

#1 - 12 Aug 2014 11:06 - Hammel

- Target version changed from 0.9.0 to 0.10.0

#2 - 11 Sep 2014 10:01 - Hammel

- Priority changed from Normal to Immediate

#3 - 11 Sep 2014 10:04 - Hammel

- Severity changed from 03 - Medium to 04 - Low

#4 - 15 Dec 2014 09:38 - Hammel

- Priority changed from Immediate to Low

- Target version changed from 0.10.0 to 2.0 - Harkonnen

This is not really necessary but might be nice to have in the future. At the moment, VideoLib works pretty well as is.

Moving to later target version and lowering priority.

#5 - 30 Aug 2016 21:43 - Hammel

- *Status changed from New to Closed*

- *% Done changed from 0 to 100*

Issue is moot - the option of selecting alternate poster sizes has been dropped with latest refactoring to support TV episodes. It was a feature with little value and too much complexity, so it was dropped.

Closing issue.
