<b>Description</b>			
<p>libpibox uses "pnc" (as well as rpi and json) as its prefixes. That's the prefix for libpnc. I need to change "pnc" to "pibox" to differentiate.</p> <p>This will break all the apps, mainly because of pncLogger, so after fixing up the library I have to fix up all the apps and retest all of them.</p>

## History

---

**#1 - 25 Feb 2017 12:13 - Hammel**

- % Done changed from 0 to 10

Just pushed the changes to the library. Now I'm rebuilding the staging tree for rpi2 so I can fix all the apps.  
The app list is in the meta repo.

**#2 - 08 Mar 2017 15:52 - Hammel**

- Status changed from In Progress to Closed

- % Done changed from 10 to 100

This is done. All the prefixes were updated in the library. All the apps have been ported to the new prefixes.

All changes committed and pushed.

Closing issue.
